If you wish to attend the training course but not write the exam, the cost of the course will be less the exam fee of R2 500.

What is ISO 19600?

ISO 19600 provides guidelines for **establishing, developing, implementing, managing and improving** a compliance management system within an organisation. This standard is **applicable to all sizes, nature and complexity of company's business activities**. This will allow organisations to encounter all their regulatory requirements and manage their operational risks with one uniform compliance framework. ***Compliance Management is more than just a legal requirement***; it is also a great tool in meeting stakeholder needs and expectations **regardless of industry**.

By being certified against ISO 19600, the organisation will be capable of detecting all existing compliance gaps and implement appropriate corrective actions by following ISO 19600 recommendations.

Why is Compliance Management important for you?

Being certified against ISO 19600 helps you ensure that your organisation is adhering to regulations and contractual obligations. You may also be able to evaluate the organisation's practices by ensuring that they are in line with specific ethical standards within the limitations of the laws. You will also get acquainted with the appropriate knowledge to offer advice on how to address any areas of noncompliance and how to guard against future compliance risks. Compliance is important for your reputation and career perspectives. By following the Compliance Management System recommendations you can support your organisation to continuously improve compliance programs and reduce the non-compliance risk rates.

Aligning your organisation's compliance framework with the ISO 19600 recommendations will demonstrate that you have established an appropriate framework to manage compliance risks, fill their responsibilities and at the same time deliver confidence and value to customers, employees and other parties.

Benefits of ISO 19600 Compliance Management

By becoming ISO 19600 certified, you will be able to:

- Demonstrate to business partners that your organisation can fulfill its contractual compliance obligations
- Build customer trust and loyalty
- Create competitive advantage that creates more efficiency while reducing risks
- Create transparency while properly complying with all the laws
- Improve standardization and uniformity
- Implement a framework for the identification of organisational risks associated with applicable legal requirements
- Develop controls to ensure adherence to regulatory requirements
